

Minor Release June 14, 2013

Defects Included in the Release

# Customer	Headline	Description	Resolution
15047	ESS - Self Service Guide Hyperlink Not Working for Non Treasury	The correct URL should be have "www" in the url http://www.hres.treas.gov/oages/essytemcomparisconrev1.htm .	URL corrected
22543	ALL: Fed Tax Withholding Calculator link in the Employee Tab is outdated	new link: http://apps.irs.gov/app/withholdin gcalculator/	URL corrected
22652	DO: Employee has duplicate eperformance plans and system will not allow removal of either.	Duplicate Documents showing for an employee. Neither the employee or I can delete either document or print the document because uerr receive the error that the document already exists. Tried to transfer to another manager since looked originally like he may have transferred to her instead of sending it to her causing the system to go into a loop, but it would not allow the transfer either. The status tracking for each shows the same time stamp and that she created the plan, but unable to do anything with either. Please have one removed or remove both so a new one can be created.	Q script created for the specific employee to delete the document
22692	Change Salary Tables URL in ESS to Point to OPM Current Site	OPM has revised their website to be basically two sites in one. There is an archived site and a current site. The salary tables link on the employee page is currently directing the users to the archived site and it should be changed to direct them to the current site.	URL corrected
